FIXTURES

FIXTURES

Yes! DINGWOOD can provide top-quality products for the fixture market AND beat competitor lead times! D.W. products can be built to spec and our revolutionary color processes speed project times, cutting out weeks, if not months, from the construction time. Not only will our products arrive quickly, but the end results are breathtaking. Form and function unite to offer the highest end look.

DINGWOOD. uses only the highest quality architectural coatings, to ensure gorgeous, realistically weathered looking materials. Wood siding can be ordered with a topcoat for the highest quality nano-technology exterior wood protection.

We are making sure more than just your cabinets last through our strict adherence to environmentally sensitive manufacturing policies and procedures.

ARCHITECTURAL WOOD FIXTURES

DINGEWOOD siding is stunningly beautiful and made from the highest FSC quality materials. Our colors are unlike anything else on the market, replicating the look of authentic barnwood!

Wood can come in a WIDE range wood species, so you can get the perfect wood for your project. Not only that, prefabricated, weathered wood comes with unlimited supply and at a price you can afford!

Wood is of such quality to be suitable for commercial and residential spaces. Numerous styles are available and can fit any space stylistically. Our high standards and workmanship ensure complete client satisfaction.
