

A close-up photograph of a wooden surface, likely a table or desk, with several water droplets of varying sizes scattered across it. The wood grain is visible, and the droplets are in sharp focus, reflecting light. The background is slightly blurred.

DIMENSIONAL LUMBER

DINGEWOOD. SIDING comes in a variety of profiles, widths, and sizes. Only FSC certified sustainable and renewable woods are used.

DINGEWOOD. uses only the highest quality architectural coatings, to ensure gorgeous, realistically weathered looking materials. Wood siding can be ordered with a topcoat for the highest quality nano-technology exterior wood protection.

We are making sure more than just your cabinets last through our strict adherence to environmentally sensitive manufacturing policies and procedures.

ARCHITECTURAL WOOD PRODUCTS

DINGEWOOD siding is stunningly beautiful and made from the highest FSC quality materials. Our colors are unlike anything else on the market, replicating the look of authentic barnwood!

Wood can come in a WIDE range wood species, so you can get the perfect wood for your project. Not only that, prefabricated, weathered wood comes with unlimited supply and at a price you can afford!

- Red Cedar
- Douglas Fir
- Redwood
- Alder
- Hemlock
- White Fir
- Poplar
- Pine

Wood is of such quality to be suitable for commercial and residential spaces. Numerous styles are available and can fit any space stylistically. Our high standards and workmanship ensure complete client satisfaction.

LUMBER INFORMATION

ORDERING INFORMATION

- Lumber comes in nearly any wood species. Color choices are found on our website or color sheet.
- Lumber orders are run to order, inquire for lead time.
- Orders can be placed by the square foot or pallet. (Smallest orders begin at a half pallet.)
- Factory finishes are available. We use two methods, depending on whether color needs S4S application of just faces.
 - S4S: Wood is run through a flood coat system and rack dried before being palletized.
 - Single Face: Color is applied using a spray application system, for a consistent and beautiful finish.

SPECIFICATIONS

- Widths: Typically, 4", 6", 8"
- Lengths: Vary
- Thickness: Solid wood only, starts at ½ "
- Color Matching: Available
- LEED credits available
- Finishes: Raw Wood, or Factory Finishes Available
